Magazine Subscriptions .....	38

The Library is open Monday, Wednesday and Saturday from 1 to 5 and 6 to 9.

Our overall circulation seems to be off, mainly due to a decided reduction in Junior book circulation. This could be due to the fact that the elementary school now has its own library, also the juniors seem to be spending more time in the library, especially with reference books, rather than taking them home. We are more than happy with this procedure as there has been a tendency on the part of the juniors to take out books and keep them over the two week limit. Adult fiction and non-fiction show substantial increases. This speaks well for our book selection, committee. Our reference books, particularly in the sciences, have increased in number helped by a \$100.00 grant from the State.

Under the new district library set up we enjoy certain advantages particularly in book selection consultants if we

have problems. Unfortunately we are faced with problems of rising expense. The main problem is mileage. Membership dues for trustees' association, plus one or two meetings we should send representatives to. The rising cost of books in the last two or three years has been fantastic. Fiction 4.95 to 6.95. Non-fiction 4.75 to a 6.95 average. Even with a better discount, cost per book has increased.

For the above reasons we have asked for an additional \$300, most of which will be used for books.

We appreciate the services of Mrs. Doran and Mrs. Dickinson with a special thanks to Mrs. Robert Sargent who has proved a friend indeed on many occasions.

## CONSERVATION COMMISSION REPORT

The Conservation Commission was not active in the past year. Its proposal at Town Meeting for the purchase of the Community Key with matching Federal funds to provide sanitary and parking facilities at the Town Beach was rejected and the problem was handed over to a committee. The commission did order trees and shrubs from the State, and these were distributed for planting by the Boy Scouts in Kelley Park and environs. It is anticipated that when further seedlings are available they will be procured by the commission for planting under the direction of the selectmen.

The commission continues to think of itself as a watchdog committee. Bristol's citizens must be farsighted if the town is to continue to be a pleasant, attractive community in which to live. There are many problems in addition to the obvious ones of a new sewer system and the development of the Town Beach. According to David L. Mann, executive director of the New Hampshire Municipal Association, the state's population is estimated to triple by 2020. More dwellings will be built in the next 35 years in New Hampshire than are presently in existence. In the January issue of Town and City Mr. Mann comments on the pressures that can turn land use to abuse. The Conservation Commission believes these problems can be identified with Bristol:

1. Junk autos. Abandoned cars continue to be a problem although legislation requires anyone with two or more junk autos to comply with motor vehicle junk yard regulations.
2. Billboards. The state and many towns lack billboard regulations. Scenic New Hampshire has a stake in controlling sign blight.
3. Dilapidated, hazardous buildings. Selectmen can acquire court orders requiring either repair or demolition of such buildings.

4. Trailer mislocation. A scattering of trailers over the landscape, between dwellings instead of in attractive parks, causes blight.

5. A treeless, barren environment. Downtown areas need landscaping with shrubs, flowers, and trees.

In substance, Mr. Mann is saying that New Hampshire communities should not replace natural beauty with blight. Have pride in your town. The Conservation Commission will try to do its part.

## REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 a.m. and 5:00 p.m. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.
